

TRAINING ON IMPACT EVALUATION OF LAND TENURE AND GOVERNANCE INTERVENTIONS

24TH MARCH 2019.
WASHINGTON DC, USA

*At the margins of the World Bank Land and Poverty Conference 2019

**FREE
REGISTRATION**

This training follows the successful development of a Guideline for Impact Assessment of Land Tenure and Governance Interventions which was peer reviewed by impact evaluation experts in a round-table session held at the World Bank Conference 2018.

As part of learning, sharing of best practices and capacity development among land experts, monitoring and evaluation practitioners, this training is set to bridge theory and practice in conducting impact evaluation of land tenure and governance interventions linked to the SDGs and other development frameworks.

The training objectives are to:

- Provide an introductory session on impact evaluation of land tenure and governance measures and application in programming,
- Present the [Guideline for Impact Evaluation of Land Tenure and Governance Interventions](#) to participants for their inputs and feedback.
- Share best practices, including impact stories and case studies from the impact evaluation reports conducted by expert agencies, consultants and partners.

HOW TO ATTEND:

- Participants are encouraged to meeting their flight and hotel costs.
- Venue and meal costs during the training will be covered by GLTN.
- Partial support for this training may be considered on case by case basis subject to availability of funding.
